SUBJECT LINE: [FREE REPORT] Ask This ONE Question Before Booking a Fishing Charter...

Dear <<NAME>>,

A fishing charter can be an amazing, epic adventure. One you'll enjoy reliving for years after your trip! But your charter will only be successful if you answer one critical question first.

I'm Pieter deJonge, owner of Grand Slam Fishing Charters. Thank you for requesting this free guide!

My company has chartered an average of 400 trips a year and served well over 25,000 customers. We know fishing!

I guarantee your successful fishing charter comes down to answering this question.

Here it is:

“What do you want out of a fishing charter?”

It sounds so simple, doesn't it?

But here's the thing: Everyone who books a fishing charter has different ideas of what a great fishing trip is.

There are many different reasons people choose a fishing charter for their vacation:

- Try their hand at fishing and learn the basic skills of deep-sea fishing.
- An opportunity to spend as much time as possible drinking...either a little or a lot!
- Celebrate an important date, milestone, or accomplishment.
- Catch as many fish as possible!
- Find a "hot Spot" to catch a specific kind of fish

The BEST part of a private fishing charter?

You can customize your trip to do any of these things, or something else entirely!

Private charters are the easiest, best way to have a great outdoor trip for your friends and family. And you don't have to worry about other guests spoiling your trip.

Why is this important?

Simple. What YOU want out of a fishing charter may be different from what your neighbor wants. Or your co-workers. Or your best friend.

Are you an experienced angler? You may have a good idea of what you want.

Maybe this is the trip where you are looking to catch a 400-pound fish. You want to join the ranks of anglers posing next to their catch!

Is this your first trip? If so, are you looking to relax on the water, see beautiful scenery, and catch a few fish?

If you're brand new to fishing, we at Grand Slam Fishing love helping new anglers "learn the ropes!"

Some of our customers, both pro and beginner, want a trip to bond with friends and family. In that case, a fishing and snorkeling party may be the right choice for you.

Want to narrow down your choices? It's easy.

Ask yourself these 3 questions...

1. How far do you want to travel?

Some people enjoy traveling on the water. They want to go out into the ocean as far as possible. If this appeals to you, our ships are powerful enough to get pretty far!

If you prefer to start fishing as soon as possible, you're in luck! Grand Slam Fishing can get you to 7000-foot-deep depths of water FAST!

You'll be dropping lines within 20 minutes of leaving shore! That means more time fishing for everyone in your group.

2. Do you want to catch the most fish possible?

If you want to load up the boat, we know where all the "hot spots" are! While we make no guarantees on how many fish you'll catch, we know how to "stack the odds" in your favor!

3. How involved do you want to be during your trip?

Some people want to enjoy the beautiful weather. They're not as concerned about having as much "hands-on" experience. If that's you, no problem! You can choose to be up to your neck in the details of fishing or not, it's up to you.
